VIRTUAL CLASSROOM ACTIVITIES ON DIFFERENT OCCASSIONS

There is no end to education. It is not that you read a book, pass an examination, and finish with education. The whole of life, from the moment you are born to the moment you die, is a process of learning. The COVID-19 pandemic has changed education forever. However our children enjoy the online classes and the activities conducted during this difficult situation. We accept the challenge, face it, and overcome it.

*Here are some **activities** conducted during the online classes by the teachers of **different subjects**, **National day celebration activities**, **Flag Day activities** etc...*
