Be positive, be passionate and be persistent

MISSION OF THE SCHOOL

Each toddler walking through the gates of school of Knowledge is viewed as a talent reserve and the school works relentlessly towards empowering each and every child

EDITORIAL

As the academic year draws to close we would like to pause and reflect on the year's accomplishments so far. This was an exciting year filled with new experiences and enhancing abilities. Creating, guiding and nurturing a community of learners through a school year is an incredible accomplishment. As teachers we believe we were supporting students and providing them with learning and skills they need to prepare for final assessment. In this edition of the newsletter, we have covered highlights that Year 2 has successfully participated during the past 3 months. We take this opportunity to thank all our parents for their support and co-operation in every step that we have taken in the direction of achievement and success in education.

Thank you for

Leading us, Inspiring us & Guiding us!!!!

*MESSAGE FROM
HEADMISTRESS
(COORDINATOR YR 2,3,4)
TASNIM MA'AM*

As I look back at this successful year, I cannot help but beam with pride at the hard work our teachers have put in to make learning happen during these tough times. Developing the right growth mindset amongst students was our goal.

Our students embraced the new challenges and strived throughout for high academic achievement. The summary of news, events and activities posted regularly gave you a greater insight into various approaches to teaching and learning.

It's time to wish you Happy Holidays. Stay safe! Stay healthy!

Voice.*

Everlasting Memories!!

Our World, Our joy..

"COMING TOGETHER IS A BEGINNING; KEEPING TOGETHER IS PROGRESS; WORKING TOGETHER IS SUCCESS."

Teaching students of year 2A was a relatively, new experience as the online teaching platform was introduced. My students really came up with innovative and creative ideas throughout the year and amazed me. Now at the end of this year we are leaving with much more happy moments and lovely memories.

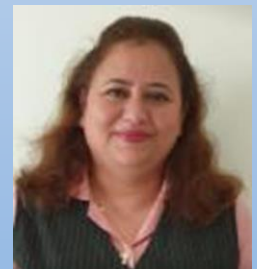

LOVE TO MY ALL STUDENTS.

Year 2b has been a very creative, kind, brave, happy and thank full class. It's was amazing to have them as my students. "Nothing can stop Learning" Year2B students have proved it. The icing on the cake was when all students gave me a surprise by making thank you card for me. The happiest moment of my life.

God brought us together for a reason, as it comes to an end know you will be incredibly missed. You've made such a difference in the class. Thank you for learning and leading as leaders. Live today and everyday with abundant joy knowing you are blessed

I want to thank each of my students for all the memories and the learning we have shared this school year. It was a wonderful and rewarding year for me. Dear students, always strive to be the 'BEST'. Wish you all the very best for the future.

My Year 2E experience was amazing as the way they settled with me and warmth that the little ones gave was so heartfelt. I will miss their 'love you ma'am' and 'god bless you ma'am' chants after each day's class.

It was a great challenge to create an effective learning platform for the students as well as to manage within the limited resources. The support of my students was commendable. As different students have different learning styles, auditory, visual, kinesthetic, and mixed. They demonstrated very well within this new mode of learning and excelled their learning skills.

2020-21 was not only a learning experience for students but also for teachers. Online or onsite the bond between students and me was always fun and memorable. The excitement and the eagerness of students motivates me to work harder. Together we made our academic year extraordinary.

I want to thank each student for all the fun memories and the learning we have shared this year. Year 2H is a wonderful class and I am blessed to be part of this class. This year we have grown together. I was overwhelmed with your thank you cards, it's an unforgettable year for me. Always strive to be the best that you can be.

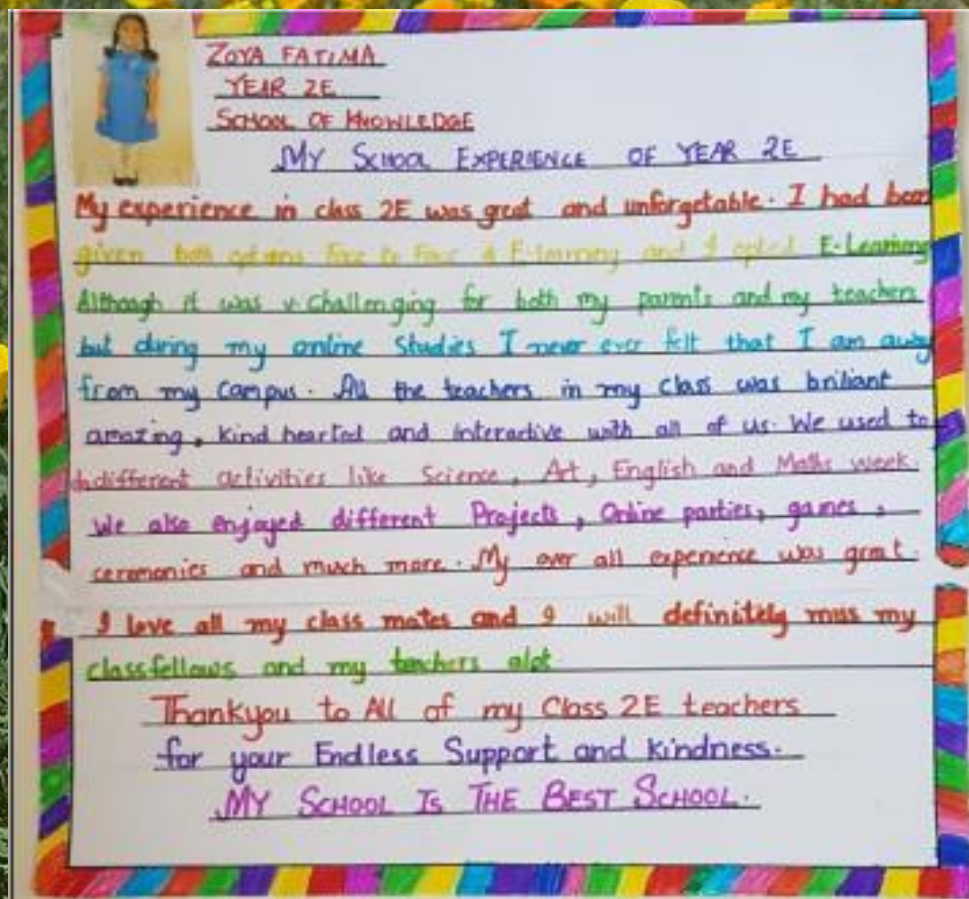

We learn as we grow, we grow as we learn. I myself have learnt a lot from my co-teachers and students in this academic year. This academic year 2020-2021 was amazing year for teaching to see the twinkle in the eyes of the students when the learning was done successfully. The few appreciations encouraged me to grow and develop well. I thank each and everyone for your support and help.

My journey through....

Creative Presenters!!!

Puppy dog

Puppy dog, Puppy dog,
Wag your tail.

Puppy dog, Puppy dog,
Let out a wail.

Puppy dog, Puppy dog,
Jump for a bone.

Puppy dog, Puppy dog,
Run on home.

If I am superhero

If I am superhero I would like to be like Iron man. I can fly anywhere using my Iron suit. I would fly around looking for ways which I could help people. I would help police to catch bad guys. I would go around the world to find fun places.

POEM

When God Created Teachers

He gave us special friends
To help us understand His world
The beauty and the wonder
Of everything we see.

When God Created Teachers

He gave us special guides
To show us ways in which we grow
So we can all decide
How to live and how to do.

When God Created Teachers

In his wisdom and his grace
Was to help us learn to make our
A better wiser place.

Year 2F

Healthy eating habits

Food is the basic need of every person from which we get energy. A balance diet very important for us to be healthy.

A balance diet means food that contains the right amount of proteins, vitamins, carbohydrates, fat and fiber.

We should all eat healthy food every day.

We should also eat fruits daily for a balance diet.

In modern times, the person is forgetting the importance of a balanced diet and going away from healthy food due to which the risk of diabetes and obesity in children is increasing.

Healthy foods give us a healthy, happy life and longevity.

WHY SCIENCE IS INTERESTING?

Science is interesting because it can be seen in our daily life. It is involved in

our growth. The fabric we wear, the food we eat, the air we breathe, the slime we play is all science.

We can do experiments to understand science.

Recently I did experiments on slime

and absorbent materials, to

understand their properties.

It is fun to learn Science!

Good Eating Habits.

By: Talenda Chingave
Year 2F

Good eating habits include:

1. Eating healthy food all times

2. Making it a habit to eat breakfast daily.

3. Making it a habit to eat meals with all nutrients.

4. Eating more of vegetables.

5. Following a meal time table.

6. Eating meals together with family.

7. Eating 3 to 5 different fruits daily.

8. Most importantly, drinking a lot of water.

Assemblies and Activities

A school assembly is a gathering of all or part of a school for any variety of purposes, such as special programs or communicating information on a weekly basis. Students gather to perform a common song or prayer, and to receive common announcements. The Year2 section conducted assemblies every week based on different topics and special days. Activities were based on these special topics.

World Environment Day is celebrated annually on 5 June. The theme for World Environment Day 2021 is Ecosystem Restoration. An awareness to preserve the environment was conveyed to students through the assembly.

Eid was celebrated to enlighten the students about the spirit of festival, symbolizing the unity of an international community. In our multicultural society we need to instill and enforce the universal values of brotherhood, tolerance, peace, compassion, and solidarity in our children.

Exams are at the corner. An assembly was conducted to guide them how to prepare for the final exam. Different tips were shared which help them attempt their exams without any tensions.

WHAT'S ON during Vacation!!!

Make a pet rock

While going for outings, kids can choose a rock, not too big or small.

They can wash it and let it dry. Kids can turn this rock into a pet by decorating with glitter, paint, googly eyes, foam, etc.

They can make it in an innovative and attractive way.

Activities that
can be done
during holidays..

Engage them in writing Daily Journal: Engage your child in writing a daily journal about his/her day. This will keep them self occupied and they will also be able to express their learning outcomes in their own words. Writing daily journal is an effective way to improve your child's writing skills. Journaling involves writing about his/her own experiences, thoughts and feelings which help to lower stress levels, advance their memory and thereby, improving your child's self reflection.

Engage your child in Summer Reading Reading is one of the best ways to spend the summer holidays. Reading a book for a certain amount of time every day helps to increase the reading speed.

Bidding Farewell to Year 2 of 2020-21

It's so hard to say a good bye...We wish loads of success and best wishes for their next steps...We treasure the fond memories they gave us...
