This newsletter captures the moments of our students journey in School of Knowledge as they remerge after their summer vacations.

This start of the Academic Year has been hectic at school with lots of prestigious events taking place to aim towards excellence through creativity and innovation.

Director's Message

Welcome to the volume one of our newsletter “Pulse of SOK” for this Academic year 22-23. On behalf of the Management of the St. Mary’s Group of Schools, I take this opportunity to welcome all and very particularly the new students and their beloved parents to SOK family.

A tiny seed that was sown in 1990 has grown and bloomed tall and borne fruits of excellence, simplicity, discipline, knowledge, wisdom, high performance, research and innovation. Glimpses and fruits of these were very visible in the exhibition held in May 2022.

The school works relentlessly to make students relevant, futuristic and life oriented. As I look back at the very successful year, I cannot help but beam with pride at the hard work and excellent teaching by the staff and the great efforts and learning by the students as well taking place every single day. Today, classrooms have turned into labs and rooms of research and innovation. Leadership qualities and talents are showcased in the school campus, development sessions, sharing of best practices, ideas etc. The way for all students to live such an experience is through high-quality performance assessment.
